

CYCLONE

Intensive Ceramic Tile / Grout Cleaner

DESCRIPTION

A heavy duty alkaline cleaner for removal of ingrained dirt, oil, grease and wax on all ceramic tile, porcelain tile and grout surfaces. CYCLONE is also a very effective grout cleaner for all polished and non-polished ceramic, porcelain and stone installations.

DIRECTIONS FOR USE

Protect all adjacent non-masonry surfaces and any polished stone surfaces that may adjoin the work surface. Thoroughly wet the surface to be cleaned prior to any application of this product. Dilute 1 part CYCLONE to 5 parts of cool to warm water (higher dilution may be required for heavy concentrations of wax or for extremely dirty grout). Apply diluted solution to the wet surface and agitate vigorously with a stiff bristle brush or natural fiber buffing pad. Allow 5 to 15 minutes dwell time depending upon the severity of the dirt.

DO NOT ALLOW SOLUTION TO DRY ON THE SURFACE.

Rinse well with clean water and continue to rinse until all the solution has been removed.

NOTES

- This product is not for use on polished marble, limestone, terrazzo, travertine or any other calcium containing stone.
- Avoid contact with anodized metals, lacquered surfaces or other sensitive areas.
- Test for suitability and appropriate dilution in a small inconspicuous area prior to general use.
